## Abstract

*This paper will evaluate some aspects of understanding of Revelation according to the views of Archpriest Georges Florovsky. The article is divided into 3 sections. The first section will examine a brief overview of revelation for Florovsky. The second section will provide an information about how is related scripture and history with revelation. The third section will discuss about the interconnection between the Church, dogma and revelation. Due to Fr. Georges Florovsky has written a broad information about the revelation (which is impossible to examine in a fuller manner in such kind of article), we decide to provide only specific quotations of Archpriest which, in our point of view, are expressed in the best and most laconic way, his ideas about this event.*
